1
This list is representative of entities that may make up the majority of public providers,

but it is not all-inclusive and may include some providers who are either not, or no longer are, providing GEMT services.

2

As such, this list is intended to be part of the public provider identification process in order to ensure providers receive timely reimbursement of the PP-GEMT add-on. For the avoidance of doubt, the responsibility of identifying a provider's "public status" is that of the MCP. As such, this list should be used as a reference but should not replace MCP policies and procedures used to ensure that eligible public providers are identified and reimbursed appropriately.

3

This list is updated as of December 15, 2023.
